

New Smoking Policy in Effect

by Betty Proctor

Chattanooga State began the new year with a virtually smoke free environment. A committee comprised of representatives from all campus interest groups worked for several weeks on the development of a smoking policy respectful of the rights of both non-smokers and smokers.

As of January 2, 1991, smoking is allowed only in one portion of the cafeteria which is clearly marked for this purpose. Other indoor areas of the campus are now off-limits to smokers. Smoking is allowed outdoors in any area.
